## Who Answers Your Telephone?

It is of prime importance to your business that the person answering your telephone be pleasant-voiced, polite, intelligent. A curt, snappy answer results in loss of trade.

It is important, too, that your telephone be answered by an employee who is thoroughly posted on the details of your business. It is annoying to call and be answered by someone who will let you tell him everything you have to say and then inform you that you will have to tell the whole story to someone else.

We suggest that you give this matter of incoming telephone calls your careful attention. Many merchants insist on their most experienced employees answering the telephone.

# "The States" Come

Now that official action has struck off the fetters of neutrality, our cousins across the Line are free to throw their whole weight into the world's struggle for freedom and humanity.

Unofficially and individually they have already contributed much to the Allied cause—in moral and financial support, in munitions and machinery, and by no means least in those brilliant inventions for which they are famous. The Lewis gun, the Curtis hydroplane, and a wonderful submarine detector are products of their genius which in our hands have done most efficient work by land, air and sea; while the American-invented, Canadian-made Gillette Safety Razor has been a friend indeed to our officers and men on active service everywhere.

Much as men have appreciated the Gillette at home, its real test has come in barracks, billets, trenches and hospitals, and no article of equipment has proved more satisfactory. Those who have returned from the firing line speak with enthusiasm of the convenience—the comfort—the necessity of having a Gillette Safety Razor if the man at the Front is to enjoy a clean and regular shave.

If there is anyone dear to you in Canada or Overseas without a Gillette and a good supply of blades, it's a chance for you to do him a really good turn by completing his equipment

The Chalmers was made for every-day

What measure of success the world accords Chalmers came from building a sensible car. Chalmers was content to let others speed to fame. Not so the Chalmer owners.

Business men seek adventure beyond the fields of markets and finance. Owners of Chalmers cars set out to gather speed—and—endurance records for Chalmers.

These are but sidelights on the sensible car-Canadian Chalmers is essentially a business man's car.

It has the class, appearance, finish—the best of cars should have. A family car with com-fort for five. A motor to put it through hard travel, over hills, crowded traffic.

Speed for emergencies, power to spare. There's safety in the way it holds the road. It was built to the Chalmers ideal for the man of sound motor-sense.

Chalmers efficiency holds down the cost. The Canadian Chalmers factory produces the ideal car for \$1,625.

See this car. Talk with Chalmers men. Learn why men speak with pride of "their Chalmers." Drive the car that brought to Chalmers the big men of motordom. Feel the life of it. Swing it around in the road. Its a MOTOR Car and More.

Chalmers is a car, a man, an institution.

# **WAR SAVINGS** For You

The factory cost of Wall Papers have doubled during the past Eight Months.

Having been in closest possible touch with Wall Paper Trade for thirty years our long and steady experience has served well both ourselves and our valued customers who for many years have depended upon us for securing the choicest Papers in the markets at the lowest prices. We buy from the factories altogether, no middle men confront our purchasing.

On August 1st last we learned of a probable rapid advance in papers which has now proven to bave been 100 per cent. So on that date we closed our 1917 Wall Paper Purchases at a minimum cash price-saving thousands of dollars to our customers as also ourselves.

In consequence of this saving we are selling Papers to-day at less than the present factory prices and at lower prices than any other store in Canada.

We have Toronto sample books here to prove our prices lower than Toronto.

Come see and test the values and our large sortment at the up street, the only Scantlebury

# High School Boys--the Empire Calls You

You strong, free, patriotic youths of Ontario, props of Empire-here and now is a man's part for you to play. Help to feed this people-hear the CALL of the Motherland for more food. Let your sturdy young shoulders at this time of seeding lift the menace of want from our gallant soldiers, from our people, our women and children-your own parents, brothers and sisters.

## Ontario's Farms Need You at This Seed-Time

"Our food stocks are alarmingly low," is Lloyd George's warning. This is Great Britain's appeal to Ontario for more food. And not only is the beloved Mother Country short, but our own available surplus of food is exhausted.

. This coming harvest must not be a failure if human hands can prevent it. YOU can help to prevent it.

But-there is less than 1 man per 100 acres left on Ontario farms, due to the calls of War. What will we do ?

YOU High School boys are the Country's hope. Now, at the time of seeding, you are asked to help, so that the crops may be sown. Without you they may not be.

Their country calls them-it is an honorable duty to help feed the people. Your boys will be paid. They will be well treated. They will gain in strength. They will learn something of the land and the farmer's point of view-

advantages of great value in your boy's education. The work will be suited to the age and strength of your son.

## Canadian Motorists have Decided which Tires it Pays Best to Buy-

You know how motorists shrewdly try out the different tires offered before they decide on any one. They have been doing this all over Canada, each making his own tests in his own way—and the great majority of them are settling down content to ride secure on Dominion Tires. Their choice is based on the one timeswerable argument-the test of the road!

When a dealer offers you Dominion Tires at prices in line with those listed below, you may be sure he is not asking you too much, nor making more than a fair profit. You may be equally sure, too, that you are getting absolutely better value for your money than any other tire on the market willigive.

# NAR SAVINGS For You

The factory cost of Wall Papers have doubled during the past Bight Months.

Having been in closest possible touch with Wall Paper Trade for thirty years our long and steady experience has served well both ourselves sud our valued customers who for many years have depended upon us for securing the choicest Papera in the markets at the lowest prices. We buy from the factories altogether, no middle men confront our purchasine. ront our purchasing.

TOn August 1st last we learned of a probable rapid advance in papers which has now proven to have been 100 per cent. So on that date we closed our 1917 Wall Paper Purchases at a minimum cash price saving thousands of dollars to customers as also ourselves.

In consequence of this saving we are selling Rapers to-day at less than the present factory prices and at lower prices than any other store in Canada.

We have Toronto sample books here to prove our prices lower than Toronto.

# Economy

Many women think they are saving money by buying cheap tea, forgetting that it is not the cost per pound but the cost per cup that determines a tea's economy.

You may pay 5 or 10 cents more per pound for Red Rose Tea than for common tea. But because Red Rose Tea is a blend of Indian-Assam teas with Ceylons, consisting of the choice tender shoots and buds-the parts of the tea plant that yield the largest amount of liquor and the finest flavor-one-third less is required in the pot to make the same number of cups.

The cost per cup between Red Rose Tea and common tea is then practically the same. But the flavor-what a differencel

The factory cost of Wall Papers have doubled during the past Eight Months.

Having been in closest possible touch with Wall Paper Trade for thirty years our long and steady experience has served well both ourselves and our valued customers who for many years have depended upon us for securing the choicest Papers in the markets at the lowest prices. We buy from the factories altogether, no middle men confront our purchasing.

On August 1st last we learned of a probable rapid advance in papers which has now proven to have been 100 per cent. So on that date we closed our 1917 Wall Paper Purchases at a minimum cash price-saving thousands of dollars to our customers as also ourselves.

In consequence of this saving we are selling Papers to-day at less than the present factory prices and at lower prices than any other store in

# Your farm help problem

The Ontario Government appreciates the patriotic efforts of the farmers of Ontario, who are making a noble contribution to the cause of victory by responding earnestly to the appeal for increased production. It realizes that these efforts are limited only by the shortage of farm help, and it desires to afford every possible assistance in order to increase the number of workers on the land this season.

## Let the Ontario Government Help You

The Department of Agriculture is making appeals through the press, and in other ways to men and boys who cannot join the army, to retired farmers and business men, to men who have spent the winter in the woods, and even to men-outside the province to help on farms. Many have already promised to help the farmers this season.

BOYS—Many city, town and village boys made a success last year as helpers on the land under proper direction. The Government is endeavouring to enlist large numbers of industrious boys for farm service. Men are visiting many Collegiate Institutes and High

Schools to find those boys who are both willing to-work and have shility and application.

It will be ascessary for the Government to lave, it will be ascessary for the Government to lave, it was to be a former, and the state of the late of the l

## Who Answers Your Telephone?

It is of prime importance to your business that the person answering your telephone be pleasant-voiced, polite, intelligent. A curt, snappy answer results in loss of trade.

It is important, too, that your telephone be answered by an employee who is thoroughly posted on the details of your business. It is annoying to call and be answered by someone who will let you tell him everything you have to say and then inform you that you will have to tell the whole story to someone else.

We suggest that you give this matter of incoming telephone calls your careful attention. Many merchants insist on their most experienced employees answering the telephone.

THE REAL BASIS OF TIRE VALUE

> Though they get but scant attention in these days of anti-skids, Plain Treads are the real basis of tire value. Compare

with any other plain tread and you will get at the fundamental reason why ALL Dominion Tires stand out so decidedly above all others of corresponding type.

The secret of milege is built right into them! Every ounce of rubber is pure, and free from all foreign matter. Every inch of fabric is clean and perfect, without a single weak or broken thread; twisted stand or oil. spot. Every process is carried out scientifically, by experts, under vigilant inspection.

This is the tire that has proved so economical and serviceable where conditions justify a plain tread — and that forms the basis of our three famous anti-skids:—

"NOBBY" TREAD

CHAIN TREAD

DOMINION TREAD Gives extra mileage. Costs but little more than the Plain Tread, and is a thoroughly dependable anti-skid. Has the most rubber where there is most ware—on the tread.

Choose the Dominion Tires that best meet your conditions and needs, and you will get that superior service which is built right into every tire we make.

A feature of the new Series 18 Studebaker cars which has attracted motorists every-where, is the reversible front seat.

where, is the reversione front seat. While both front seats are individual and built to conform to the contour of the passenger's back—the seat next to driver's may be turned over quickly and easily. This enables the occupant to sit facing forward or facing the tonneau.

No other car on the market offers you this convenience—it is an original idea, ex-clusive with Studebaker.

Both front scats are adjustable to all leg-lengths. When necessary, one or both may be lifted out of the ear entirely! Many peo-ple on tours do this and sleep in the ear itself.

Come in and see these new Studebaker cars—note the many improvements and re-finements.

aspognaful of Red Rose Tea go as far as 5 Teaspoonsful of ordinary tea

### Cheap Tea Not Economical!

Many people complain about the poor flavor of the cheap tea they are using, but are trying to put up with it because they think they are saving money.

In reality, cheap tea is rarely more economical, often less economical, than Red Rose Tea. While Red Rose Tea may cost a few cents more, or even 10 cents more per pound, than common tea three teaspoonsful of Red Rose Tea, are equal to five teaspoonsful of common tea. Less Red Rose Tea is required in the tea pot, because this master blend of Indian-Ceylon teas consists largely of the famous hill grown teas of Assam, India.

of Absam, and an armonic These Assam teas excel in vigor, richness and strength. Their leaves yield more liquor and a fuller flavored liquor. Blended with Ceylons they make the ideal tea for flavor and economy. they make the ideal tea for flavor and economy. Try a sealed package of Red Rose Tea and keep count of the extra number of cupstivitiels in comparison with cheap teas. You will find that Red Rose is worth every cent asked for it—and that it costs no more to use this delightful tea.

Heslip, Ed... Hawkins Heslip, Ed. . . . Hawkins, A. E. . Hawley, Miss . . The Gray-Dort is a complete car. It offers you all that any motor car can offer. You can pay a much higher price and secure very little more. You cannot secure anywhere near as much in other cars under one thousand dollars. Just note what the Gray-Dort offers:

POWER Etienne Planche built the Gray-Dort motor. And the motors, has put his greater achievement, the Gray-Dort, in a class by incef. For here is a powerful motor that is economical, light, silent and speedy.

EASE There's luxury in the Gray-Dort—the luxury of roominess, of deep upholstery, of long springs. Rough roads are smoothed out. Touring is made a real pleasure, ovilhout faigue. And there is esse of driving. Westinghouse electric starting and lighting. One-man Demountable urms, clear-vision windshield. Safe, sure steering gear: Strong brakes. Easy gear-shift. Comfort has become luxury in the Gray-Dort.

BEAUTY Nothing you own will give so great artistic pride as the flight of a swallow. Only a coach-builder of the standard of Robert Gray could produce such beauty of design and finish.

RELIABILITY The Grays are the largest carriage builders honest value, outstanding quality aboute integrity. This standard has been applied to the Gray-Dort. You can depend on this car-depend on it in any emergency—depend on it for years. It will not fail you.

At the price no other car begins to offer you so much

## SOMM

"Some Collar" "Somme" is the name of the new W. G. & R. Collar—and it is a radical change in-collar designing.

Note the smart lines of this collar The points, if desired, may be slightly turned up in front, which adds to its

stylish appearance. Two rows of stitching give another smart touch.

Lots of tie space. "Slip On" buttonhole.

W. G. & R. collars, fine shirts, pyjames, and summer underwear are worthy of your patronage.

W. G. & R. Products are Sold in Belleville by F. W. Millard.

The Royal Naval
Canadian Volunteer Reserve Overseas Division

Never in its centuries of rule on the rolling waves has Britain's fleet done so great a work for freedom and humanity as in this war. It is saving the world from German "Kultur"—curbing their savage sub-marines—and keeping open the food lanes for neutrals as well as Allies.

Such a task needs thousands more men for the hundreds of new naval craft, and Britannia calls for Canadians to come over and help out. Here is your chance to "do your bit" with the best of the bull-dog breed—to serve on the open

has a chance to keep clean! — And the Shitish tar and bia Canadian mates certainly make the most of this chance! Their love of cleanliness shows not only in spotlers decks and shining brasilization of the control of the control of the Cillette Sadety Razor, whose efficiency in its own line compares with that of the fleet itself. It is "Ready, aye ready" for action may see, and perfect charps in any see.

Slip a Gillette In your kit and enlist yourself if you can. If you cannot, see that some gallant lad fighting for you has one of these razors to give him a bit of home comfort.

20 MINUTES

That's all. Twenty minutes after taking a ZUTOO tablet your headache will be good.
One of these little tablets—safe, reliable and harmless as sods—will cure any headache in an omante.
Or, better still, takes when you feel the headachs coming on. ZUTOO tablet will ward it off.—dip it in the bod.

16.00 will ward it off—sip it in the bed.

#### A DETERMINED EFFORT.

A determined effort to enlistment in Quebec Province is promised by Lt.-Col., the Hon, P. E. Blondin, Postmaster-General, says The Ottawa Journal-Press. He proposes to go about the matter in a comprehensive way, and there is no doubt that his pur-pose is to bring the full force of the recruiting appeal home to the peo-ple of his native Province. In an interview, Lt.-Col. Blon-

din says he has full confide the goodwill of the people of Que-bec. Their hearts are sound. He believes that by patient, persistent representation of the war issues from the standpoint of Quebec, such as he intends to make, they will re-spond heartily and in numbers.

During the last two weeks in March, according to Militia De-partment figures, the Montreal district produced 292 recruits and the Quebe's district 81, which brings the totals respectively up to 36,282 and 8,145. This combined result not half the total of the Toront unstrict alone in Ontario. It also falls below the total of the King-ston district, which includes Otta-wa. It will be seen that Quebec offers an opportunity for recruiting effort, of the kind Lt.-Col. Blondin is to make. His task will be to district alone in Ontario. It also the community spirit into the re-cruiting appeal, and he is well-fitted for this work. The Postmaster General is sincere, enthusiastic and

By EARL DERR BIGGERS

The High Cost of Indi-gestible Food falls heavily upon the household where there is no intelligent direc-tion of the food supply. Expensive high proteid foods, such as beef and pork, foods, such as beef and pork, impose a heavy burden upon the liver and kidneys. They are not as mitritious as cereals and fruits. ## Who Answers Your Telephone?

It is of prime importance to your business that the person answering your telephone be pleasant-voiced, polite, intelligent. A curt, snappy answer results in loss of trade.

It is important, too, that your telephone be answered by an employee who is thoroughly posted on the details of your business. It is annoying to call and be answered by someone who will let you tell him everything you have to say and then inform you that you will have to tell the whole story to someone else.

We suggest that you give this matter of incoming telephone calls your careful attention. Many merchants insist on their most experienced employees answering the telephone.

## INTERESTING FACTS

Concerning Your Eyes

## and Some of its Defects

The termal eye is nearly spherical in form, with uniformly curvid lens, perfectly balanced muscles and a delitate nerve structure. all in good working order. The normal eye adapts itself to all conditions of light and focuses instantly for all distances. A normal part of eyes are identical with one another and work in absolute harmony.

Defective Eyes

When the eye is not spherical, but elongated or flatiened, or when the crystaline lens is thicker on one side than the other, there is bound to be a delect in the vision. Or when the delicately poised muscles become weakned through, strain or averwork then serious trouble impands.

Expert Knowledge Required

Cases of this kind require specially ground lenses to overcome the trouble and set the eyes at rest as they should be. These lenses must be fitted with extreme care by an optometrist of experience and judgment.

Changing Vision

But even normal eyes are subject to a gradual change and at about the age of forty require the nide of glasses. This is due to a hardening of the crystaline lenses so that they do not focus as readily as in youth. Loss of vitality or sickness hasten this change matterjaily and as soon as this blur is noticed, at once consulty our Optician.

Are You one of Those for Whom We Have Saved This Money? You May Be!

On August 1st, 1916, we contracted for and purchased 50,000 rolls, fifty thousand rolls of New Wall Papers , pre-vious to a threatened advance of which our long experience proved of value to ourselves and our customers.—

This paper today would cost nearly double the price we paid for it, and we are to-day selling these Papers at prices lower than the manufacturers are asking for the same Papers.

All are 1917 goods, and some lines are not yet to hand, but they are purchased and paid for at the old prices and will be ours as soon as they are made.

will be ours as soon as tney are mane.

Papers we are selling at 10c, per roll are being sold by Toronto Departmental Stores at 15c. Bring in your Toronto samples, we will give you any Paper they offer at the same prices, in many cases, lower prices.

We bought and sold Wall Papers in a very large way before any Departmental Store in Canada handled Wall Papers. We should know the business from A to Z. Our prices will provesto you that we are not asteep, slow or stuggish.

## **Embroideries** and Laces

It has been many months since we received any of these much wanted. Embroideries and Laces direct from the makers in Switzerland and we feel indeed fortunate at their safe though belated arrival and pleased that the prices are no higher than before thewar—below we describe a few of the new additions that you've been walting for:

### 27 inch Flouncing Embroideries

The daintiest patterns imaginable are portrayed in these new 27in, embroideries. They have hemstitched and scalloped borders, and the values are superb at 50c, 75c, 90c and \$1 yard.

### **Corset Cover Embroideries**

Some exceptionally pretty pat-terns are shown, including the New Filet Stitching. The ma-terials are fine and the values are rare. Prices 39c, and 50c, yard.

### 18 inch Flouncing Embroideries

A wide range of 18in. Embroideries is here for your seeing, and we know you'll like the dainty new patterns the minute you see them—Some special values in the new, Filet Stitch only 39c, yard.

## Heavy Embroid-ered Edgings

These are very new aird show the Cambric edge with the heavy scallops and as an in-stance of their lowness in price we make mention of a special line at 15c, yard.

## To All Men of Military Age in Belleville

Owing to the Overseas units in Canada being rushed to England as quickly as transportation permits we will abortly find our Country without any Defence Force.

With a view to being prepared for any immergency that may arise, our Government has issued a call for 50,000 men to replace these men sent Overseas.

The time to enlist is now.

You can carry on your regular work and still pre-self for any immergency that may arise.

For the present, each man will drill three nights a week and is expected to complete your training at camp starting about he lat of June. While at Camp, separation allowances will be drawn by wives of the men.

.. Clothing equipment, etc., will be the same as for Overseas

Won't you let us hear from you at once. Our offices are is the Corby Building, and we will be pleased to give you any fur ther information on the subject.

## "Nature" chose Assam

Scientists tell us that Assam in northern India was the original home of the tea plant. Thousands of years ago "Nature" chose the climate and soil of this favored region as most suitable for growing tea.

It is, therefore, natural that the hillside gardens of Assam (see picture) grow the teas which to-day are famous for their flavor, fragrance and rich strength.

It is of these Assam teas, skilfully blended with choice Ceylons, that Red Rose Tea consists. It is this rich As-sam strength that users of Red Rose Tea must thank for its splendid economy—for the greater number of cups it yields to the pound, fully one-third more than ordinary teas.

To make certain that these Assam qualities are fully preserved for you we put Red Rose Tea into dust, oder and air proof sealed packages. Red Rose Tea reaches you pure, fresh and full strength-we guarantee it.

We do not know your reason for still being in civilian clothes after nearly three years of war. It may be good one. But ean you apply those reasons for not joining the defence force. You would not not some duty to your country, and subscribing to the Pa-triotic Fund does not lescen the duty'of personal service.

The only way the Defence Force will be used will be to de-fend Canada's borders or to preserve order, and surely every able bodied man would feel morally bound to do that much.

No man who joins the C.D.F. will be forced to go overseas, but will only go of his own volition. The Government have as-sured us of that.

### i de 14 iuw managana an an an an an Can You Conscientiously Refuse to Join the **Home Defence Force?**

We do not know you'r reason for still being in civilian clothes after nearly three years of war. It may be good one. But can you apply those reasons for not joining the defence force: You must owe some duty to your country, and aubschbing to the Patriotic Fund does not lessen the duty of personal service.

The only way the Defence Force will be used will be to fend Canaria's borders or to preserve order, and surely every a bodied man would feel morally bound to do that much.

No man who joins the C.D.F. will be forced to go overseas, but will only go of his own volition. The Government have as-sured us of that.

The pay and allowances while in camp are very little less than the C.E.F.

# 600000 HUNS FAIL TO VERDUN GOAL

(Press Despatch, Apr. 24, 1916)

On the grim slopes of Le Mort Homme and Douaumont, a year ago this month, Generals Nivelle and Petain broke Germany's offensive power and decisively turned back the tide of victory. French readiness, mobility and speed-typified in their wonderful "seventy-fives"-proved that in spite of disadvantages the Hunnish hordes could be conquered.

In the humbler but yet important sphere of personal comfort, our fighting men have been well and truly served by the same qualities of readiness, mobility and speed embodied in the Gillette Safety Razor. They have proved that under all the disadvantages of life in billets and trenches; a clean, refreshing shave is always ready for the lucky owner of a Gillette. All he needs is soap, water, and five minutes to spare.

Returned soldiers are eloquent in their appreciation of the Gillette Safety Razor on active service. If your boy Overseas hasn't one (or you yourself, either) you cannot spend Five Dollars better than in making good the need! Why not send him a Gillette, or get one for yourself, to-day?

# For Home Service

# You Are Needed To Release Troops for Overseas

Canada can send well trained men to France to the aid of our gallant victors of Vimy Ridge, if the Militia regiments are brought up to strength and ready to defend the Dominion in case of emergency.

He Does His Best, Who Does His Duty.

Sir Robert Borden says: "Now is the most critical period of the war". What more patriotic duty can a man do—who through force of circumstances could not enlist for Overseas Service—than join the

### CANADIAN HOME DEFENCE FORCE

The term of enlistment, training, clothing and equipment are the same as for overseas service. Pay the same as that for Militia on active service. Separation allowances for married men. The call comes to men between 18 and 45 and physically fit to join the Home Defence Force.

MEN STILL REQUIRED FOR OVERSEAS IN THE CANADIAN EXPEDITIONARY FORCES.

More men are required for reinforcements at the Front. Those who desire to volunteer for overseas service may enlist through one of the regiments ordered to mobilize for Home Defence.

There are three great problem apart from the war, confronting this country today: (1) Imperial relations; (3) transportation; (3) national unity. Let us consider Sir Wilfrid's part in regard to these issues. Is it unfair to say touch ing each of these problems, that he has practically created them? We do not think it is unfair, and pro pose to state the reasons for thi

in Canada touching our imperial relationship. And yet we have. From the day, back in 1867, when Sir Wilfrid Laurier opposed Con-federation tooth and nail, declaring that he "cared nothing for the English Colonies," but was con-cerned "only with Quebec," he has stood in the path of every Cana dian advance toward closer Empire dan attrance toward closer Empire union. In 1891 he uttered the fer-vent wish that Canada would leave the Motherland as "the ripe fruit fails from the parent tree," in 1892 he denounced British diplomacy and openly declared for Canadian independence; in 1900 he refused nce; in 1900 he refused. until forced by public sentiment, to send troops to South Africa; in ence attempt to weld the Empire more closely together; in 1910 he introduced a Navy Act that con-tained the germs of separation; and, last, but not least, he refused, in 1912, the aid to Britain that, conceivably, might have rendered the present war impossible. #### One shows "gap Other fits close

You know, by experience that the ordinary collar soon spreads and shows an unsightly "gap" at the top

On the other hand, a

1st—Because the inside buttonhole (see 1 in illustration) is a fraction of an inch higher than illustration) is a fraction of an inch higher than the outside buttonhole. This makes the collar hitton act as a lever and exert a steady upward pressure on the hook end (see 3) making a tight lack at the top of the collar.

2nd—Because it has our "Slip Oa" bittonhole (see 2) on the outside tab. Thus, when buttoning the cutside tab, the collar slides easily into play, the post of the collar button coming to the top of the "Slip On" buttenhole, making it impossible for the collar to spread. It must stay close at the top.

Contrast the lofty spirit of po triolism with the petty partizan-ship, the pitiable, carping criticism and the campaign of vilification and inuendo which have character-ized the attitude of Canadian Opposition leaders toward the Border Government. In the United States the leaders of the great Republican party drop all thought of political capital in the face of a common foe. In Canada, where, because of the noble sacrifices of our soldiers, the spirit of unity and co-operation should be uppermost, Liberal lead ers are steadily engaged with a raft that is admirable for its cur ning to destroy the Govern the day. #### Why the Call to Canada is So Urgent

If this country does not raise a big crop this year, not only will the people of Canada suffer, but the Motherand and her Allies will suffer, and their military power will be weakened if not paralyzed. Therefore, the right solution of the present warpholene comes back to the farm, as to a foundation upon which our whole national and international structure must be built and waited and the property of the proper maintained.

The farmers know that they are the last reserve, and that the soil on which crops are grown is the strategic ground on which wars are decided. To their care is entrusted the base of

To enable the farm to do the work two factors are sensitial. The first I man, Whatever we are to do must be done it man. Must we have a sensitial the sensitial that the sensitial for them to do, the last man in each city, town and village must be mobilized at

Every man not on Active Service can help. In every city, town and vilage are men who, by their training on the farm, or by their present occupation, can readily adapt thamselves to farm work. These can render no greater service to the Empire at the present time than by answering the call of the farm. Cap-able men and boys willing to learn should not allow their lack of farm experience to stand in the way.

or farm experience to stand in the way.

Can the employer render a more signal service in this crisis
than by encouraging these men to help the farmer to cultivate
every available acre, and by making it easy for them to go?

Outario's farm lands are waiting—the implements are ready
—the equipment is complete—the farmer is willing—all he needs
is labor.

Is lator.

So short is the world's food supply that without increased production many in Canada must go hungry, and even with enormously increased production we cannot expect cheap food. The world is waiting for our harvest.

If peace should be declared within a year, the food conditions will be no better, for the accumulated hunger of the Central Empires must be met. This will absorb a large part of the world's

# New and Distinctive

Anti-skid efficiency and low mileage cost are two outstanding features of this new DOMINION Tread Tire. The illustration shows how admirably it is suited to resist side slip or loss of traction. The moderate price makes its mileage cost very low, and its dependable anti-skid

properties fit it for all-round service. Because there are so many different kinds of cars and roads and drivers, and

no one type of tire can possibly suit all needs, we make four distinct types:

DOMINION TREADS-new, but already they have "made good".

PLAIN TREADS—economical and serviceable. CHAIN TREADS-the famous, efficient anti-skids.

NOBBY TREADS—"the aristocrats of the road"-90% puncture proof.

Choose with judgment the DOMINION Type that suits your needs, and you will get the most satisfactory service you ever had.
